GENERAL INFORMATION

- ◆ This notification form shall be used to notify the BAAQMD of asbestos removal (**renovation**) operation only. Notification is required for each renovation where the amount of Regulated Asbestos-Containing Material (RACM) is greater than or equal to 100 square/linear feet, or for any dry removal. All boxes must be completed. Appropriate fee payment must accompany each notification. Notifications may be faxed to (415) 749-4658 or (415) 928-0338, but job numbers will not be issued until a valid check, cashier's check or money order for applicable fees is received.
- ◆ Notification shall be provided to the District at least 10 working days prior to commencement of renovation, or as early as possible prior to commencement of emergency renovation. The notification period will not start until a complete notification is submitted.
- ◆ An Acknowledgement Letter is mailed to the contractor/person listed within 3 days of receipt of a complete notification. This should be checked for accuracy of data.
- ◆ If the job is postponed or cancelled, the District **must** be notified by a revision; the Acknowledgement Letter should be used to fax or mail the revision information. When cancelled, a cancellation fee will apply.
- ◆ For specific "Emergency" conditions, the 10 working day period will be waived. Notification must be made by fax and the job number will be issued if accompanied with a faxed copy of a valid check or money order.
- ◆ For residential structures with 4 or fewer units, the 10 working day period may be reduced to 72 hours for an additional fee.

INSTRUCTIONS

- ◆ **SPECIFIC LOCATION OF PROJECT:** Identify where the renovation is taking place if the site contains more than one building, or if the building has multiple floors.
- ◆ **START AND COMPLETION DATES:** The start date is the date on which removal commences. Any revision to the start or completion dates must be submitted prior to the previously notified date(s). Under no circumstances may the revised start date be earlier than the 10th working day following the postmark or fax date of the original notification. If the start date is unknown, enter an estimated start date and revise the notification when the actual start date is known, but not later than the estimated start date.
- ◆ **MATERIAL DESCRIPTION:** Indicate the type of RACM being removed, e.g., pipe lagging, acoustical ceiling, thermal system insulation, asbestos insulated heating ducts.
- ◆ **METHODS OF REMOVAL:** Indicate the methods and procedures you will use to comply with the standards in Reg. 11-2. If the method involves dry removal, follow the instructions on the form.
- ◆ **REMOVAL AMOUNT:** Indicate the amount of RACM to be removed. If the job involves wet and dry removal, indicate the total for both. Indicate how much of this total amount involved dry removal on the line marked **. Non-friable asbestos removal is exempt from notification unless it is made friable during renovation activity.
- ◆ **DISPOSAL SITE INFORMATION:** Indicate the name of the disposal site where the RACM will be deposited.
- ◆ **WASTE TRANSPORTER INFORMATION:** Indicate the name of the transporter of RACM. The State of California considers RACM a hazardous waste, therefore, a contractor is required to obtain an EPA number (ID#) to qualify as a waste hauler.
